## ABOUT FIRE-SAFETY INDIA

Fire safety management is no easy task. In fact it is a tremendous responsibility, demanding constant awareness and vigilance every day in order to reduce the risk of fire. At FIRE-SAFETY INDIA Services, we understand the true nature of the task; our aim is to help your organisation do this to the best of its ability.

Of course we offer the complete portfolio of services including fire risk assessments, fire marshal training, fire extinguisher training and servicing, external audits and consultancy.. meaning you can manage all your fire safety needs effectively through just one company.

### We can even go one step further:

- ⇒ We develop long term fire safety partnerships with our clients, becoming a trusted resource available at any time to provide advice and guidance on all fire related issues.
- ⇒ We combine our experience as professional firefighters and senior fire safety officers with an approach to help prioritise the workload and to ensure that you're investing your time and money in the most important prevention tools.
- ⇒ Our clients choose how they use our services – our flexible service means we can fit into any role according to your needs.
- ⇒ We stand by you, acting as a mediator with your local fire service and, where necessary, with insurance companies or other relevant organisations including building control.

*Our clients continue to work with FIRE-SAFETY INDIA Services because we deliver the reassurance and peace of mind that their fire safety is compliant, effective and under control.*

**"FIRE-SAFETY INDIA has provided a totally professional response throughout. The assessors work quickly and effectively, delivering Fire Risk Assessments which are comprehensive detailed & easy to understand the content... This has been, and continues to be, an extremely positive relationship and I would honestly recommend them to any prospective clients."**
